

IT'S MORE THAN A BRAND.

Just like the Macaw in the wilderness of Brazil, Tropical Paints inspires to achieve an established presence in Malawi. Operations have just started, and our products have been curated with the finest shades of red, blue, yellow and white amongst others, to reveal surrealistic colour.

Our logo, the Macaw, serves as an icon for warmth, creativity, awe, friendliness and vibrancy. Throughout Malawi, our logo instinctively invokes an overwhelming feeling of pride and patriotism because we aim to put Malawi on the map when it comes to the paint industry and start-up businesses.
